Division I & II Horticulture Rules for Exhibitors

1. The Phoenix Rose Society Show will be governed by American Rose Society rules, regulations and guidelines for accredited horticulture and arrangement shows.
2. Exhibitors need not be members of any rose organization. However, all specimens entered shall be roses grown by the exhibitor in his or her own private outdoor garden.
3. Judging will be in accordance with current GUIDELINES FOR JUDGING ROSES. The judges' decisions are final.
4. Exhibition of roses will be under ARS Exhibition Names. Most varieties have been given a designated ARS Exhibition Name that is listed in one of the following publications: the current edition of Modern Roses, International Registration Supplement, and the Handbook for Selecting Roses, & the Combined Rose List. This is an alphabetically arranged show in all specimen classes with each variety constituting a separate class, except for classes requiring collections of varieties.
5. Only ARS entry tags may be used. Each container must have a tag. Portions of the entry tag visible to judges must be in blue or black pen or black (regular) pencil.
6. Only one exhibitor or team from one garden may enter any one class. More than one entry of the same variety from the same garden in any one class will disqualify all such entries.
7. Wedges of Styrofoam or plant material may be used to position specimens in a container provided that none of the material extends above the container. Use of unauthorized material will result in penalties. Aluminum foil may not be used as a wedge.
8. All containers for all horticulture classes will be furnished by the Show Committee, except for End of the Trail Classes. Use of bowls and boxes are on a first come, first serve basis.
9. During placement (6:30-9:45am) only the Placement Committee will be permitted in the horticulture show area. Challenge Class entrants and Arrangement exhibitors must place their own entries. However, these exhibitors must not move or interfere with other entries when placing their entries in these classes. Only assigned persons are allowed in the show area during judging.
10. Classification table is optional. If an exhibitor is sure of variety name and that the entry tag is filled in correctly, they may bypass classification by sending an entry directly to the placement with entry tag closed. Judges may disqualify any rose misplaced by an exhibitor.
11. At the discretion of the judges, ribbons will be awarded if merited. Trophies and awards will be given as indicated in the show schedule.
12. Entries will be accepted from 6:30am to 9:45am on the day of the show.
13. No exhibits may be removed before close of show at 3:30 pm. Ribbons, Novice awards, arrangement awards and Judges gifts may be taken by their winners at this time.
14. Certificates will be available at the June monthly meeting. If a trophy is not available a Phoenix Rose Society Certificate will be substituted.
15. The Rose Show Committee will exercise due caution to protect exhibits but cannot assume responsibility for loss, theft; or injury.
16. The Phoenix Rose Society show chair will review any disqualifications with the judges before they are finalized.

ARS rules governing disqualification will be adhered to and are as follows:

- A. Misnamed
- B. Misclassified
- C. Mislabeled or unlabeled
- D. Stem-on-stem* (excluding those roses designated as Shrubs or Old Garden Roses)
- E. Misplaced
- F. Side buds on a specimen that must be shown disbudded
- G. Presence of a foreign substance on stem, foliage or blossom
- H. An entry in violation of ARS or show rules, a specimen without an AEN (approved exhibition name) or the appearance of the exhibitor's name in any location other than the designated place on the entry tag.

In most cases, an exhibition bloom is considered at its most perfect stage of beauty when it is from 1/2 to 3/4 open, with sufficient petals symmetrically arranged in an attractive circular outline tending toward a high center. A bud (sepals not down) will not qualify as a bloom. Stem length must bear a pleasing relationship to the size of the bloom.

NOTE: The term Single refers to a bloom with 4-8 petals. Single stem means the same as one bloom. Old Garden Roses and Shrubs may be shown stem on stem. Micro-miniature refers to size of bloom and proportionate foliage – following the criteria stated in the show schedule.
